<b>Sorbus species</b>	<b>Mountainash</b>
<b>Tilia tomentosa and cultivars</b>	<b>Silver Linden</b>
<b>Ulmus species</b>	<b>Elm</b>
<b>Zelkova species</b>	<b>Japanese Zelkova</b>

*\*Planting these tree varieties in the Fall is okay if the trees were Spring dug only. GLLS carries these varieties in our nursery and all trees have been dug at the proper time in the Spring. They are held and cared for properly during the season which allows them to be available for successful Fall planting.*
